

## Graduation Photos from Ron Webb

**\*\*\*\* Please note that the Zenfolio website has been updated and that there are some changes on how to select and download photos. Read instructions carefully below \*\*\*\***

**Please share this link above and download information below with anyone else you think might like seeing/having the images. Enjoy**

The link above will give you access to the images I shot. The images can be viewed, downloaded, and shared on any smart device or PC/laptop device. The following download instructions are for a PC/laptop device. Open the gallery by clicking on the link above. Click on any thumbnail to see the enlarged view image. Click the "X" in the upper right corner to go back to viewing the rest of the gallery. To download an image or images, click the "select" button at the top of the gallery, then click on each image you wish to download. A check mark will appear on the images you have selected. Once you've selected the images you want, scroll back to the top of the gallery and click the download button. If you select more than one image to download, you will receive a prompt to submit your email address. Zenfolio will email you when the zipfile is ready. Single image requests will generally download immediately. The images are sized and formatted to produce photo-quality prints up to 8x12. Larger file sizes are available upon request.
